

CB / CL Series Engine Block Heaters

Features

- ▶ Constant circulation of coolant through the engine achieves even heat distribution
- ▶ One-piece, heavy-duty, pressure die-cast aluminum tank with a bolt-on flange element assembly
- ▶ Fixed thermostat ON: 100°F, OFF: 120°F (optional temp ranges available)
- ▶ All parts replaceable - easy to service
- ▶ CSA and cULus approved
- ▶ Classified weather tight
- ▶ Models available for Class I, Group D (Hazardous Locations) applications
- ▶ Various voltages and 3 phase units available

▶ Easy Starts

- ▶ Saves warm-up time
- ▶ Saves fuel
- ▶ Prolongs battery life
- ▶ Protects the Environment
- ▶ Reduces “white smoke” upon start-up
- ▶ Engine is ready for full power operation
- ▶ Reduces noise pollution

▶ Reduces Engine Wear

- ▶ 90% of engine wear is due to low jacket water temp upon start-up
- ▶ Stops destructive condensation
- ▶ Extends engine life

Specifications

Part Number	Volts	Watts	Phase	Amps
10591	120	2500	1	20.8
11376	208	2500	1	12.0
10592	240	2500	1	10.4
14208	480	2500	1	5.2
11136	120	3000	1	25.0
11137	208	3000	1	14.4
10593	240	3000	1	12.5
11138	480	3000	1	6.3
11139	208	4000	1	19.2
10594	240	4000	1	16.7
11140	480	4000	1	8.3
11141	208	5000	1	24.0
10595	240	5000	1	20.8
11142	480	5000	1	10.4
